

EAST SUSSEX BREAST SCREENING SERVICE

Screening Office, The Park Centre for Breast Care, 177 Preston Road,
Brighton, BN1 6AG

Breast Screening will take place in the Breast Screening Unit at The
Park Centre from:

December 2020

for approximately 2 months

Women from this Practice between the ages of 50 and 70
will be automatically invited for screening during that time.

Invitations are issued according to a strict rota and we invite each
practice in turn. This could mean that your relatives, friends and
colleagues may be invited before you.

Women who become 50 this year might not be invited until the next
time we are in the area. This complies with National Guidelines
which state that we have until a woman's 53rd birthday to invite her
for her first screening.

If you have recently registered with this Practice (ie within the last
three months) you may not be invited for a few months - but, once
your details have been sent to the appropriate authority, the
Screening Service will be notified and you will be contacted.

All women invited will receive an appointment letter, a map
showing the location of the Mobile Unit and an informative booklet.
